ENFLIGHT ADDS EXECUTIVE LEADERSHIP TO ADVANCE NEXT GENERATION INTELLIGENT FLIGHT PLANNING IPAD APPLICATIONS

Stow, MA (November 29, 2011) – Enflight, a leading innovator of intelligent flight planning applications, today announced the appointment of Chairman, Dr. Robert Glorioso and Vice President of Marketing, John Gitelman to its executive team. Their addition to the executive team coincides with efforts to advance the next generation of intelligent flight applications for the iPad® to make flying even easier for pilots.

Dr. Glorioso brings his considerable experience as an executive, consultant, investor, board member, entrepreneur, inventor, author and pilot to Enflight. He is the founder and principal of QC Avionix, a creator of cockpit accessories for pilots. Earlier in his career he was Vice President and Director of the Pacific Rim Board for Digital Equipment Corporation. He founded and served as CEO, President, and Chairman of Marathon Technologies, a software company delivering high availability, fault and disaster tolerant computer systems. He was chairman of Turbine, a massive multiplayer games company and served on the boards of Proteon, Netrix, and Ultranet Communications in the public network and ISP fields.

Mr. Gitelman is a strategy, branding, marketing and product management specialist with extensive experience running global businesses at Bose, Polaroid and other brand leaders as well as an entrepreneur with innovative customer-focused products and applications in the Apple ecosystem.

Phillip Apley, CEO of Enflight and one of its founders, says, “Enflight has always been on the forefront of intelligent aviation information solutions with Personal Minimums Analysis and at-a-glance weather infographics. By bringing Bob and John aboard we are committing to significantly raise the bar to provide pilots with even more innovative, comprehensive and easy-to-use solutions.”

About Enflight

Enflight offers pilots an exclusive suite of flight plan workflow products and tools that enable pilots to plan flights faster, more easily, and more safely. The software offers industry-leading web-based and iPad®

applications that provide flight planning and FAA legal briefings featuring sophisticated Personal Minimums Analysis and patented at-a-glance TAFSpiral™ weather infographics. As the original authors of the DUATS (CSC) briefing service, Enflight has the most established and tested code base in the business and wrote the original AOPA flight planning system.
